ABOUT US

At Trinova Exim, we bring the pure essence of Indian nature to the world through our range of raw and unprocessed natural honey. Our honey is sourced directly from certified beekeepers and sustainable apiaries across India, ensuring authenticity, purity, and traceability from hive to jar.

With an unwavering commitment to quality, sustainability, and ethical sourcing, we deliver honey that retains its natural enzymes, aroma, and nutritional value — just as nature intended. Each variety reflects the distinct floral identity of its region, offering a truly unique sensory experience.

Our honey is more than a product — it is a promise of purity and wellness, carefully handled at every stage to preserve its natural goodness. From the lychee orchards of Bihar to the Ajwain fields of Rajasthan, we ensure that every drop embodies the richness of India's diverse flora.

At Trinova Exim, we combine traditional beekeeping practices with modern quality systems to offer honey that meets global food safety and export standards. Our mission is to share the taste of nature's authenticity with global brands in the food, nutraceutical, and wellness industries.

OUR COMMITMENT

Purity First:

100% raw, unprocessed, and unblended honey free from additives, preservatives, and artificial flavors.

Sustainability:

Ethical beekeeping practices that protect pollinators and promote ecological balance.

Traceability:

Complete transparency from hive sourcing to final packaging.

Quality Assurance:

Tested for moisture, HMF, antibiotic residues, and purity as per international standards.

We Take Pride In Delivering Honey
That Nourishes Health, Delights The Palate,
And Connects Nature's Simplicity With Modern Living.

PRODUCT DETAILS & VARIETIES

Overview

Trinova EXIM offers 100% pure, raw, and unprocessed honey carefully sourced from selected apiaries across India. Each floral variety captures the unique essence of its region, maintaining natural enzymes, nutrients, and beneficial compounds. Our honey is single-origin, traceable, and free from additives or artificial sweeteners.

Nature crafted it

We Preserved It
And Now You
Can Enjoy
Its Richness
Every Day.

Floral Honey Varieties

Lychee Floral Honey

Source:

Lychee orchards of Muzaffarpur, Bihar (Feb-Apr)

Profile:

Fruity-sweet and delicately floral, with a light golden hue and silky texture.

Taste & Aroma:

Mild, refreshing sweetness with subtle lychee notes.

Best Use:

Ideal for desserts, beverages, and skincare formulations.

Keekar

Floral Honey

Source:

Keekar (Acacia) trees of Rajasthan and Haryana

Profile:

Light amber colour, smooth consistency, and a mildly earthy flavour.

Taste & Aroma:

Gentle and balanced with woody undertones.

Best Use:

Perfect for daily consumption, herbal teas, and wellness blends.

Notable Property:

Known for its immune-boosting and digestive health benefits.

Jamun

Floral Honey

Source:

Jamun (Indian Blackberry) blossoms from Bijnor, Uttar Pradesh (mid-summer)

Profile:

Dark, rich honey with a tangy, aromatic finish.

Taste & Aroma:

Distinctively bold and slightly bitter-sweet.

Best Use:

Ideal for diabetic-friendly recipes, smoothies, and nutraceutical use.

Notable Property:

High in antioxidants; supports blood sugar balance.

Ajwain

Floral Honey

Source:

Ajwain (Carom) fields of Madhya Pradesh & Rajasthan

Profile:

Herbal, peppery, and naturally potent.

Taste & Aroma:

Warm, aromatic, and slightly spicy.

Best Use:

Excellent for respiratory health formulations and digestive remedies.

Notable Property:

Traditionally valued for its anti-inflammatory and antimicrobial effects.

PROCESSING

Our honey is raw and cold-filtered to retain natural enzymes, pollen, and phytonutrients. No pasteurization, blending, or chemical treatment is performed. The product is 100% traceable from hive to jar ensuring authenticity and purity.

Quality control is conducted through moisture analysis, HMF testing, and antibiotic screening as per international export standards.

HEALTH BENEFITS

- Rich in natural antioxidants and phytonutrients
- Supports immune and respiratory health
- Promotes healthy digestion and gut balance
- Acts as a natural energy booster and soothing agent for sore throats
- Offers antibacterial and anti-inflammatory properties

SOURCE OF INGREDIENTS

All floral honeys are sourced directly from sustainable beekeeping farms and certified floral regions across India:

- **Muzaffarpur, Bihar:** Lychee floral
- **Rajasthan & Haryana:** Keekar floral
- **Bijnor, Uttar Pradesh:** Jamun floral
- **Madhya Pradesh & Rajasthan:** Ajwain floral

Beekeepers are trained in ethical apiculture practices, ensuring bee health and ecological harmony.

WHY CHOOSE OUR TRINOVA NATURAL HONEY

At Trinova Exim, our honey stands apart for its purity, provenance, and premium quality. We understand that global brands demand more than a sweetener they seek authenticity, consistency, and trust.

WHAT MAKES OUR HONEY UNIQUE

Single-Origin & Floral-Specific

Each variety Lychee, Keekar, Jamun, and Ajwain is harvested from specific floral regions, ensuring a distinct taste, aroma, and character unique to that blossom.

Sustainably Sourced

We partner with responsible beekeepers who follow ethical and sustainable apiculture practices, ensuring both bee welfare and biodiversity.

Raw & Cold-Filtered

Our honey is never pasteurized it is gently filtered to retain natural enzymes, pollen, and beneficial nutrients.

Certified Quality

Every batch undergoes rigorous testing for purity, moisture content, and antibiotic residues meeting FSSAI, NMR, and international export standards.

Custom Packaging & Private Label

We offer flexible bulk packaging (HDPE drums) and custom private labelling for brands seeking to market authentic Indian honey under their own name.

Global Supply Capability

Our strong logistics and export network ensure on-time delivery and consistent product availability worldwide.

Health & Wellness Focused

Naturally rich in antioxidants, enzymes, and minerals, our honey supports immunity, digestion, and holistic wellness making it ideal for food, beverage, nutraceutical, and cosmetic applications.

EXPERIENCE THE PURITY OF NATURE

Choose Trinova Natural Honey where every drop tells the story of India's rich floral landscapes, crafted by nature and perfected by care. Pure. Traceable. Unprocessed. Naturally Indian.
